

Model		CLB2016
Initial dimensions (mm) ^{*1}	Diameter	20
	Height ^{*2}	2.0
Weight (g) ^{*1}		2.1
Charge (CCCV)	Max. voltage (V)	4.2
	Standard current (mA)	15
	Temperature (deg. C)	0 to +45
Discharge (CC)	End voltage (V)	3.0
	Max. current (mA)	60
	Temperature (deg. C)	-20 to +60
Nominal voltage (V)		3.7
Nominal capacity (mAh) ^{*3}		30

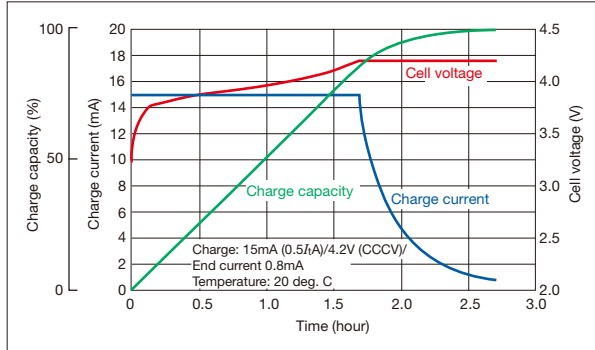

Unit: mm

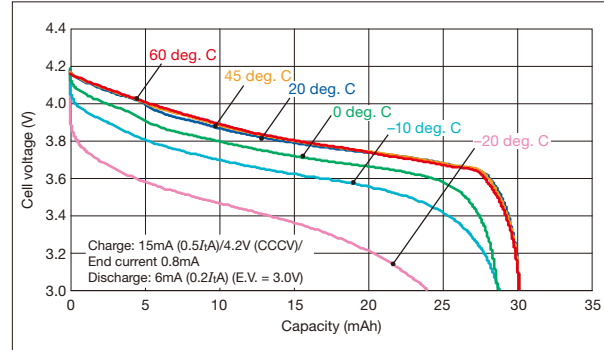

- UL 1642 Recognized models (Technician Replaceable): Certification Number: MH12568
- UN 38.3 (Dangerous goods transportation regulations) Recognized models

Characteristics

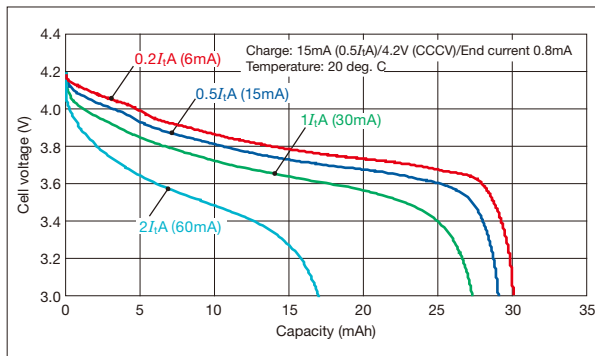

● Charge characteristics

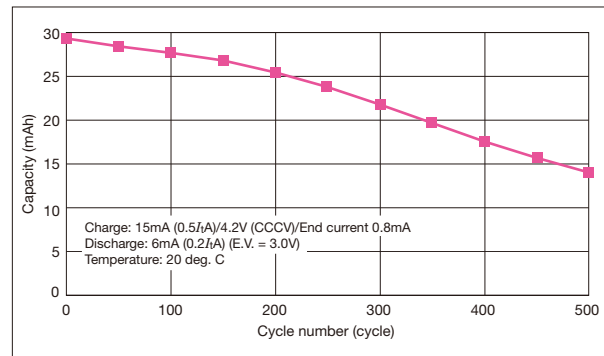

● Discharge temperature characteristics

● Discharge load characteristics

● Cycle life characteristics

*1 Dimensions and weight are for the battery itself, but may vary depending on terminal specifications and other factors.

*2 100% charged

*3 Nominal capacity is according to the following conditions: Charge: 0.5I_t/4.2V (CCCV)/End current 0.03I_t, Discharge: 0.2I_t/E.V. = 3.0V, Temperature 20 deg. C
