SafetyDataSheet

Issued/Revised on April 01, 2021. Ver. 4

1. Identification of product and manufacturer/supplier details

- Product Identification number: Manufacturer/Supplier Address Section in charge: Direct phone number:
- Emergency phone number:

- : Slion Tape No.5300
- : Maxell, Ltd.,
- 3819 Noborito, Tama-ku, Kawasaki, Kanagawa, 214-0014, Japan
- Quality & Environment Administration Section
- : +81-44-577-2482

Compound

Adhesive tape

Not applicable

: General Affairs Section +81-44-922-1131

2. Hazards Identification

GHS classification

: The captioned product is an article and not correspond to the criterion of GHS classification.

3. Information on composition and ingredients

Single chemical substance or compound: Generic name

Chemical characteristics (chemical formula, etc.):

Ingredients and composition

Components and ingredients	Content (wt.%)	CAS No.	Note
Cloth (Base)	16 ~ 26	_	
Pressure sensitive adhesive	52 ~ 62	_	
Release paper	17 ~ 27	_	

:

4. First-aid Measures

In case of the adhering to skin

In Case of Eye Contact

In case of swallowing

5. Fire-fighting Measures

Extinguishing Media

Specific hazards during fire

Extinguishing method Protection for Fire-fighter

6. Accidental release measures

Personal Precautions Environmental Precautions

Methods and materials for containment and cleaning up

- : Peel off slowly, then wash thoroughly by soap and water. In case of feeling sick, please consult with the doctor.
- : Wash away thoroughly by clean water. If there is irritation, please have the doctor's treatment.
- : Spitting out as possible, and if you felt abnormality, please have the doctor's treatment.
- : The pouring water, the water spraying, the powder extinguishing agent, the carbon dioxide gas, the foam extinguishing agent.
- : There are possibilities of carbon monoxide or carbon dioxide gas occurrence by thermal decomposition and incomplete burning.
- : Extinguish by using extinguishing media from windward.
- : Wear a fire suit by the situation. Also, against carbon monoxide and carbon dioxide, wear a suitable respiratory protective device.
- : Not applicable
- : Not applicable
- : Sweep up scraps together by a broom, etc.

For a long term and repeatedly, let the adhesive surface not

Avoid contact to flame, spark or high temperature object for

touch to the skin. Also, let not to touch the eyes.

7. Precautions for handling and storage

Handling

- **Technical measures**
- Precautions Precautions for safe handling Storage Technical measures Storage conditions Packaging container material

8. Exposure controls / Personal protection

Equipment measures

Hand protection

Eye protection

Carcinogenicity

Control density parameters

Allowance density parameters Personal protection equipment Respiratory protection

Skin and body protection

9. Physical and chemical properties

:	Not applic	able.				
	Les tell'es e	equipment	(h h -	

: Storing at cool and dark place is desirable.

- : Installing equipment for eye cleaning and body washing near the handling place.
- : Not applicable.
- Not applicable.
- : Not necessary in general

prevention of the fire.

Not applicable.

Not applicable.

Fire Attention

- : It's not necessary in general, but if necessary, please wear protective gloves.
- : It's not necessary in general, but if necessary, please wear normal eye glasses, and protection glasses.
- Let the adhesive surface not to touch directly to the skin and body by protective gloves or like.

Physical State Solid Form Roll or Sheet Melting/Solid point No data • **Boilling point** No data . Flash point No data Autoignision temperture No data Specific gravity Approx. 1.0 (Except Release Paper) 10. Stability and reactivity Stability and reactivity : Under the general storage and handling, it is stable and not reactive. It will not react dangerously at normal temperature. Hazardous Decomposition Products(Excluding carbon-oxide, : So far, no significant data is available. carbon-dioxide, water) 11. Toxicological information Acute toxicity : No information as a product Skin corrosivity/irritation No information as a product : Serious damage/irritation against eyes No information as a product : Sensitizing potential of respiratory organs No information as a product : Sensitizing potential of the skin No information as a product : Germ cell mutagenicity No information as a product ÷

Reproductive toxicityNo information as a productSpecific target organ systemic toxicity(single exposure)No information as a product.

No information as a product.

SafetyDataSheet

Issued/Revised on April 01, 2021. Ver. 4

11. Toxicological information (continuation)	
Specific target organ systemic toxicity(repeated exposure)	: No information as a productt.
Aspirated respiratory organs hazards	: No information as a product
12. Ecological information	
Mobility in the soil	: No information
Residual property and degradability	: No information
Bioccumulation characteristic	: No information
Harms to ozoen layer	: No information
13. Disposal consideration	
Residual wastes :	 For disposal, please obey to related laws and local standards. To consign to the official industrial Wastes Disposition Specialist who has permission of governor and so forth, and dispose. In case of consigning the processing of the wastes, please consign after notifying the hazardous and toxicity enough to the processing company.
14. Transport information	
International rules	: Not applicable
United Nations classification and United Nations number	: Not applicable
Precautions at transportation	: Avoid water-stained and rough handling, not to break package.
15. Regulatory information	
Fire laws	: Correspond to nominated inflammable substance (3,000kg and more case)
Industrial Safety and Health Law	: Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.
PRTR Law (PRTR Law: A law on grasping exhausting amount to the environment, and promotion of management improvement.)	: Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.
 16. Other information Reference documents JIS Z 7253:2012 GHS information provision system (2016.6), Ministry of Heat and Ministry of Economy,Trade and industory. 	alth Labour and Werfare,
Accident cases	: No information

Management of information contained herein

: The safety data sheet is provided to business operators who treat as a reference information for ensuring safety handling concerning to danger and hazardous chemical products. The handling business operators, please utilize this, as reference, on understanding of being necessary to take proper measure for the actual situation of each handling at own responsibility. Therefore, this data sheet itself is not a written guarantee of safe.
