SafetyDataSheet

Issued/Revised on February 22, 2023. Ver. 1

1. Identification of product and manufacturer/supplier details

Product Identification number: Manufacturer/Supplier Address Section in charge: Direct phone number:

- : Slion Tape No.5487-(00~01, 03~99)
- : Maxell, Ltd.
- : 3819 Noborito, Tama-ku, Kawasaki, Kanagawa, 214-0014, Japan
- : Quality & Environment Administration Section
- : +81-44-922-1131

2. Hazards Identification

GHS classification

: The captioned product is an article and not correspond to the criterion of GHS classification.

3. Information on composition and ingredients

Chemical characteristics (chemical formula, etc.):

Single chemical substance or compound:

- : Compound
- : Adhesive tape
- : Not applicable

Ingredients and composition

Generic name

Components and ingredients	Content (wt.%)	CAS No.	Note
Paper (Base)	1 ~ 10	-	
Acrylic type pressure sensitive adhesive	40 ~ 50	_	
Release paper	45 ~ 55	_	

4. First-aid Measures

In case of the adhering to skin	: Peel off slowly, then wash thoroughly by soap and water. In case of feeling sick, please consult with the doctor.
In Case of Eye Contact	: Wash away thoroughly by clean water. If there is irritation, please have the doctor's treatment.
In case of swallowing	: Spitting out as possible, and if you felt abnormality, please have the doctor's treatment.
5. Fire-fighting Measures	
Extinguishing Media	: The pouring water, the water spraying, the powder extinguishing agent, the carbon dioxide gas, the foam extinguishing agent.
Specific hazards during fire	 There are possibilities of carbon monoxide or carbon dioxide gas occurrence by thermal decomposition and incomplete burning.
Extinguishing method	: Extinguish by using extinguishing media from windward.
Protection for Fire-fighter	: Wear a fire suit by the situation. Also, against carbon monoxide and carbon dioxide, wear a suitable respiratory protective device.
6. Accidental release measures	
Personal Precautions	: Not applicable
Environmental Precautions	: Not applicable
Methods and materials for containment and cleaning up	: Sweep up scraps together by a broom, etc.

SafetyDataSheet

Issued/Revised on February 22, 2023. Ver. 1

7. Precautions for handling and storage

	Hand	ling
--	------	------

- Technical measures
- Precautions Precautions for safe handling Storage Technical measures Storage conditions Packaging container material

8. Exposure controls / Personal protection

Equipment measures

Hand protection

Eye protection

Control density parameters

Allowance density parameters Personal protection equipment Respiratory protection

Skin and body protection

9. Physical and chemical properties

Serious damage/irritation against eyes

Sensitizing potential of the skin

Germ cell mutagenicity

Reproductive toxicity

Carcinogenicity

Sensitizing potential of respiratory organs

Specific target organ systemic toxicity(single exposure)

- : For a long term and repeatedly, let the adhesive surface not touch to the skin. Also, let not to touch the eyes.
 - : Avoid contact to flame, spark or high temperature object for prevention of the fire.
- : Not applicable.
- : Wash hands after handling.
- : Fire Attention
- : Storing at cool and dark place is desirable.
- : Not applicable.
- Installing equipment for eye cleaning and body washing near the handling place.
- : Not applicable.
- : Not applicable.
- : Not necessary in general

No information as a product

No information as a product.

No information as a product

: No information as a product.

- : It's not necessary in general, but if necessary, please wear protective gloves.
- : It's not necessary in general, but if necessary, please wear normal eye glasses, and protection glasses.
- : Let the adhesive surface not to touch directly to the skin and body by protective gloves or like.

Physical State Solid Form Roll or Sheet Melting/Solid point No data Boilling point No data Flash point No data Autoignision temperture No data Specific gravity Approx. 1.0 (Except Release Paper) 10. Stability and reactivity Stability and reactivity : Under the general storage and handling, it is stable and not reactive. It will not react dangerously at normal temperature. Hazardous Decomposition Products(Excluding carbon-oxide, : So far, no significant data is available. carbon-dioxide, water) 11. Toxicological information Acute toxicity No information as a product : Skin corrosivity/irritation No information as a product :

SafetyDataSheet Issued/Revised on February 22, 2023. Ver. 1

on understanding of being necessary to take proper measure for the actual situation of each handling at own responsibility. Therefore, this data sheet itself is not a written guarantee of

11. Toxicological information (continuation)	
Specific target organ systemic toxicity(repeated exposure)	: No information as a productt.
Aspirated respiratory organs hazards	: No information as a product
12. Ecological information	
Mobility in the soil	: No information
Residual property and degradability	: No information
Bioccumulation characteristic	: No information
Harms to ozoen layer	: No information
13. Disposal consideration	
Residual wastes :	 For disposal, please obey to related laws and local standards. To consign to the official industrial Wastes Disposition Specialist who has permission of governor and so forth, and dispose. In case of consigning the processing of the wastes, please consign after notifying the hazardous and toxicity enough to the processing company.
14. Transport information	
International rules	: Not applicable
United Nations classification and United Nations number	: Not applicable
Precautions at transportation	: Avoid water-stained and rough handling, not to break package.
15. Regulatory information	
Fire laws	: Correspond to nominated inflammable substance (3,000kg and more case)
Industrial Safety and Health Law	: Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.
PRTR Law	: Excluded. A Product that does not become a state other than a
(PRTR Law: A law on grasping exhausting amount to the environment, and promotion of management improvement.)	solid state and does not become powder or granular.
16. Other information	
Accident cases	: No information
Management of information contained herein	: The safety data sheet is provided to business operators who treat as a reference information for ensuring safety handling concerning to danger and hazardous chemical products. The handling business operators, please utilize this, as reference, on understanding of bains processory to take proper measure for

safe.
