## **SafetyDataSheet**

Issued/Revised on November 08, 2022. Ver. 1

#### 1. Identification of product and manufacturer/supplier details

- Product Identification number: Manufacturer/Supplier Address Section in charge: Direct phone number:
- Emergency phone number:

- Slion Tape #5632
- : Maxell, Ltd.,
- 3819 Noborito, Tama-ku, Kawasaki, Kanagawa, 214-0014, Japan
- Quality & Environment Administration Section
- : +81-44-577-2482

Compound

Adhesive tape

Not applicable

: General Affairs Section +81-44-922-1131

#### 2. Hazards Identification

GHS classification

: The captioned product is an article and not correspond to the criterion of GHS classification.

#### 3. Information on composition and ingredients

Single chemical substance or compound: Generic name

Chemical characteristics (chemical formula, etc.):

#### Ingredients and composition

Components and ingredients	Content (wt.%)	CAS No.	Note
Base (Film)	16 <b>~</b> 26	25038-59-9	
Pressure sensitive adhesive	12 ~ 22	_	
Release film	27 ~ 37	_	
Release paper	25 <b>~</b> 35	—	

•

#### 4. First-aid Measures

In case of the adhering to skin	
---------------------------------	--

In Case of Eye Contact

In case of swallowing

#### 5. Fire-fighting Measures

Extinguishing Media

Specific hazards during fire

Extinguishing method Protection for Fire-fighter

#### 6. Accidental release measures

- Personal Precautions
- Environmental Precautions
- Methods and materials for containment and cleaning up

- Peel off slowly, then wash thoroughly by soap and water. In case of feeling sick, please consult with the doctor.
- : Wash away thoroughly by clean water. If there is irritation, please have the doctor's treatment.
- : Spitting out as possible, and if you felt abnormality, please have the doctor's treatment.
- : The pouring water, the water spraying, the powder extinguishing agent, the carbon dioxide gas, the foam extinguishing agent.
- : There are possibilities of carbon monoxide or carbon dioxide gas occurrence by thermal decomposition and incomplete burning.
- : Extinguish by using extinguishing media from windward.
- : Wear a fire suit by the situation. Also, against carbon monoxide and carbon dioxide, wear a suitable respiratory protective device.
- : Not applicable
- : Not applicable
- : Sweep up scraps together by a broom, etc.

## **SafetyDataSheet**

Issued/Revised on November 08, 2022. Ver. 1

#### 7. Precautions for handling and storage

Hand	ling

- **Technical measures**
- Precautions Precautions for safe handling Storage Technical measures Storage conditions Packaging container material

#### 8. Exposure controls / Personal protection

Equipment measures

Hand protection

Eye protection

Control density parameters

Allowance density parameters

Personal protection equipment Respiratory protection

- : For a long term and repeatedly, let the adhesive surface not touch to the skin. Also, let not to touch the eyes.
- : Avoid contact to flame, spark or high temperature object for prevention of the fire.
- : Not applicable.
  - : Not applicable.
- : Fire Attention
- : Storing at cool and dark place is desirable.
- : Not applicable.
- : Installing equipment for eye cleaning and body washing near the handling place.
- : Not applicable.
- : Not applicable.
- : Not necessary in general
- : It's not necessary in general, but if necessary, please wear protective gloves.
- : It's not necessary in general, but if necessary, please wear normal eye glasses, and protection glasses.
- : Let the adhesive surface not to touch directly to the skin and body by protective gloves or like.

: Under the general storage and handling, it is stable and not reactive. It will not react dangerously at normal temperature.

: So far, no significant data is available.

#### 9. Physical and chemical properties

Skin and body protection

Physical State	: Solid
Form	: Roll
Melting/Solid point	: No data
Boilling point	: No data
Flash point	: No data
Autoignision temperture	: No data
Specific gravity	: Approx. 1.2 (Except Release Paper, Release film)

Stability and reactivity

1

Hazardous Decomposition Products(Excluding carbon-oxide, carbon-dioxide, water)

### 11. Toxicological information

Acute toxicity	: No information as a product
Skin corrosivity/irritation	: No information as a product
Serious damage/irritation against eyes	: No information as a product
Sensitizing potential of respiratory organs	: No information as a product
Sensitizing potential of the skin	: No information as a product
Germ cell mutagenicity	: No information as a product
Carcinogenicity	: No information as a product.
Reproductive toxicity	: No information as a product
Specific target organ systemic toxicity(single exposure)	: No information as a product.

# SafetyDataSheet

Issued/Revised on November 08, 2022. Ver. 1

11. Toxicological information (continuation)			
Specific target organ systemic toxicity(repeated exposure)		No information as a productt.	
Aspirated respiratory organs hazards	: No	o information as a product	
12. Ecological information			
Mobility in the soil		o information	
Residual property and degradability	: No	o information	
Bioccumulation characteristic	: No	o information	
Harms to ozoen layer	: No	pinformation	
13. Disposal consideration			
Residual wastes :	To Sp dis In co	or disposal, please obey to related laws and local standards. to consign to the official industrial Wastes Disposition becialist who has permission of governor and so forth, and spose. case of consigning the processing of the wastes, please unsign after notifying the hazardous and toxicity enough to the occessing company.	
14. Transport information			
International rules	: No	ot applicable	
United Nations classification and United Nations number	: No	ot applicable	
Precautions at transportation	: Av	void water-stained and rough handling, not to break package.	
15. Regulatory information			
Fire laws		prrespond to nominated inflammable substance (3,000kg and ore case)	
Industrial Safety and Health Law		ccluded. A Product that does not become a state other than a lid state and does not become powder or granular.	
PRTR Law	: Ex	cluded. A Product that does not become a state other than a	
(PRTR Law: A law on grasping exhausting amount to the environment, and promotion of management improvement.)	SO	lid state and does not become powder or granular.	
16. Other information			
Accident cases	: No	o information	
Management of information contained herein		he safety data sheet is provided to business operators who	

The safety data sheet is provided to business operators who treat as a reference information for ensuring safety handling concerning to danger and hazardous chemical products. The handling business operators, please utilize this, as reference, on understanding of being necessary to take proper measure for the actual situation of each handling at own responsibility. Therefore, this data sheet itself is not a written guarantee of safe.
