### **SafetyDataSheet**

Issued/Revised on September 01, 2022. Ver. 3

#### 1. Identification of product and manufacturer/supplier details

- Product Identification number: Manufacturer/Supplier Address Section in charge: Direct phone number:
- Emergency phone number:

#### 2. Hazards Identification

GHS classification

: Slion Tape No.6141-10

- : Maxell, Ltd.,
- 3819 Noborito, Tama-ku, Kawasaki, Kanagawa, 214-0014, Japan
- Quality & Environment Administration Section.
- : +81-44-577-2482
- : General Affairs Section +81-44-922-1131

: The captioned product is an article and not correspond to the criterion of GHS classification.

#### 3. Information on composition and ingredients

Chemical characteristics (chemical formula, etc.):

Single chemical substance or compound:

: Compound

- : Adhesive tape
- : Not applicable

Ingredients and composition

Generic name

Components and ingredients	Content (wt.%)	CAS No.	Note
Base(film)	30 ~ 40	_	
Pressure sensitive adhesive	8 ~ 18	_	
Release Paper	47 ~ 57	-	

#### 4. First-aid Measures

In case of the adhering to skin

In Case of Eye Contact

In case of swallowing

#### 5. Fire-fighting Measures

Extinguishing Media

Specific hazards during fire

Extinguishing method Protection for Fire-fighter

#### 6. Accidental release measures

Personal Precautions Environmental Precautions

Methods and materials for containment and cleaning up

- : Peel off slowly, then wash thoroughly by soap and water. In case of feeling sick, please consult with the doctor.
- : Wash away thoroughly by clean water. If there is irritation, please have the doctor's treatment.
- : Spitting out as possible, and if you felt abnormality, please have the doctor's treatment.
- : The pouring water, the water spraying, the powder extinguishing agent, the carbon dioxide gas, the foam extinguishing agent.
- : There are possibilities of carbon monoxide or carbon dioxide gas occurrence by thermal decomposition and incomplete burning.
- : Extinguish by using extinguishing media from windward.
- : Wear a fire suit by the situation. Also, against carbon monoxide and carbon dioxide, wear a suitable respiratory protective device.
- : Not applicable
- : Not applicable
- : Sweep up scraps together by a broom, etc.

# SafetyDataSheet

Issued/Revised on September 01, 2022. Ver. 3

: For a long term and repeatedly, let the adhesive surface not

#### 7. Precautions for handling and storage

Handling
Technical measures

reclinical measures	•	touch to the skin. Also, let not to touch the eyes.	
	:	Avoid contact to flame, spark or high temperature object for prevention of the fire.	
Precautions	:	Not applicable.	
Precautions for safe handling	:	Not applicable.	
Storage			
Technical measures	:	Fire Attention	
Storage conditions	:	Storing at cool and dark place is desirable.	
Packaging container material	:	Not applicable.	
8. Exposure controls / Personal protection			
Equipment measures	:	Installing equipment for eye cleaning and body washing near the handling place.	
Control density parameters	:	Not applicable.	
Allowance density parameters	:	Not applicable.	
Personal protection equipment			
Respiratory protection	:	Not necessary in general	
Hand protection	:	Wear protective gloves	
Eye protection	:	It's not necessary in general, but if necessary, please wear normal eye glasses, and protection glasses.	
Skin and body protection	:	Let the adhesive surface not to touch directly to the skin and	
		body by protective gloves or like	
9. Physical and chemical properties			
Physical State	:	Solid	
Form	:	Roll or Sheet	
Melting/Solid point	:	No data	
Boilling point	:	No data	
Flash point	:	No data	
Autoignision temperture	:	No data	
Specific gravity	:	Approx. 0.9 (Except Release Paper)	
10. Stability and reactivity			
Stability and reactivity	:	Under the general storage and handling, it is stable and not reactive. It will not react dangerously at normal temperature.	
Hazardous Decomposition Products(Excluding carbon-oxide, carbon-dioxide, water)	:	So far, no significant data is available.	
11. Toxicological information			
Acute toxicity	:	No information as a product	
Skin corrosivity/irritation	:	No information as a product	
Serious damage/irritation against eyes	:	No information as a product	
Sensitizing potential of respiratory organs	:	No information as a product	
Sensitizing potential of the skin	:	No information as a product	
Germ cell mutagenicity	:	No information as a product	
Carcinogenicity	:	No information as a product.	
Reproductive toxicity	:	No information as a product	
		No information as a muchurat	

Specific target organ systemic toxicity(single exposure)

: No information as a product.

## SafetyDataSheet

Issued/Revised on September 01, 2022. Ver. 3

11. Toxicological information (continuation)		
Specific target organ systemic toxicity(repeated exposure)		No information as a productt.
Aspirated respiratory organs hazards		No information as a product
12. Ecological information		
Mobility in the soil		No information
Residual property and degradability		No information
Bioccumulation characteristic		No information
Harms to ozoen layer		No information
13. Disposal consideration		
Residual wastes :		For disposal, please obey to related laws and local standards. To consign to the official industrial Wastes Disposition Specialist who has permission of governor and so forth, and dispose. In case of consigning the processing of the wastes, please consign after notifying the hazardous and toxicity enough to the processing company.
14. Transport information		
International rules		Not applicable
United Nations classification and United Nations number	:	Not applicable
Precautions at transportation		Avoid water-stained and rough handling, not to break package.
15. Regulatory information		
Fire laws	:	Correspond to nominated inflammable substance (3,000kg and more case)
Industrial Safety and Health Law	:	Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.
PRTR Law (PRTR Law: A law on grasping exhausting amount to the environment, and promotion of management improvement.)		Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.

#### 16. Other information

Accident cases

Management of information contained herein

: No information

:

The safety data sheet is provided to business operators who treat as a reference information for ensuring safety handling concerning to danger and hazardous chemical products. The handling business operators, please utilize this, as reference, on understanding of being necessary to take proper measure for the actual situation of each handling at own responsibility. Therefore, this data sheet itself is not a written guarantee of safe.
