SafetyDataSheet

Issued/Revised on April 23, 2024. Ver. 1

1. Identification of product and manufacturer/supplier details

Product Identification number: : Slion Tape #6227-(00~99)

Manufacturer/Supplier : Maxell, Ltd.

Address : 3819 Noborito, Tama-ku, Kawasaki, Kanagawa, 214-0014, Japan

Section in charge: : Quality & Environment Administration Section

Direct phone number: : +81-44-922-1131

2. Hazards Identification

GHS classification : The captioned product is an article and not correspond to the

: Compound

criterion of GHS classification.

3. Information on composition and ingredients

Single chemical substance or compound: : Adhesive tape
Generic name : Not applicable

Chemical characteristics (chemical formula, etc.):

Ingredients and composition

| Components and ingredients | Content (wt.%) | CAS No. | Note |
|-----------------------------|----------------|------------|------|
| Base(Polyester film) | 52 ~ 62 | 25038-59-9 | |
| Pressure sensitive adhesive | 38 ~ 48 | ı | |
| Release agent | ≦ 1 | | |

4. First-aid Measures

In case of the adhering to skin : Peel off slowly, then wash thoroughly by soap and water. In

case of feeling sick, please consult with the doctor.

In Case of Eye Contact : Wash away thoroughly by clean water. If there is irritation,

please have the doctor's treatment.

In case of swallowing : Spitting out as possible, and if you felt abnormality, please

have the doctor's treatment.

5. Fire-fighting Measures

Extinguishing Media : The pouring water, the water spraying, the powder

extinguishing agent, the carbon dioxide gas, the foam

extinguishing agent.

Specific hazards during fire : There are possibilities of carbon monoxide or carbon dioxide

gas occurrence by thermal decomposition and incomplete

burning.

Extinguishing method : Extinguish by using extinguishing media from windward.

Protection for Fire-fighter : Wear a fire suit by the situation. Also, against carbon

monoxide and carbon dioxide, wear a suitable respiratory

protective device.

6. Accidental release measures

Personal Precautions : Not applicable Environmental Precautions : Not applicable

Methods and materials for containment and cleaning up : Sweep up scraps together by a broom, etc.

SafetyDataSheet

Issued/Revised on April 23, 2024. Ver. 1

7. Precautions for handling and storage

Handling

Technical measures For a long term and repeatedly, let the adhesive surface not

touch to the skin. Also, let not to touch the eyes.

: Avoid contact to flame, spark or high temperature object for

prevention of the fire.

Precautions Not applicable. Precautions for safe handling Not applicable.

Storage

Technical measures : Fire Attention

Storage conditions Storing at cool and dark place is desirable.

Packaging container material Not applicable.

8. Exposure controls / Personal protection

Equipment measures : Installing equipment for eye cleaning and body washing near

the handling place.

Not applicable. Control density parameters Allowance density parameters Not applicable.

Personal protection equipment

Not necessary in general Respiratory protection Hand protection Wear protective gloves

Eye protection : It's not necessary in general, but if necessary, please wear

normal eye glasses, and protection glasses.

Skin and body protection : Let the adhesive surface not to touch directly to the skin and

body by protective gloves or like

9. Physical and chemical properties

Physical State : Solid Roll or Sheet Form Melting/Solid point No data Boilling point : No data Flash point : No data Autoignision temperture : No data Specific gravity : Approx. 1.4

10. Stability and reactivity

Stability and reactivity : Under the general storage and handling, it is stable and not

reactive. It will not react dangerously at normal temperature.

Hazardous Decomposition Products(Excluding carbon-oxide, : So far, no significant data is available.

carbon-dioxide, water)

11. Toxicological information

Acute toxicity : No information as a product Skin corrosivity/irritation : No information as a product Serious damage/irritation against eyes : No information as a product Sensitizing potential of respiratory organs : No information as a product Sensitizing potential of the skin : No information as a product Germ cell mutagenicity : No information as a product Carcinogenicity : No information as a product. Reproductive toxicity : No information as a product Specific target organ systemic toxicity(single exposure) : No information as a product. Specific target organ systemic toxicity(repeated exposure) : No information as a product. Aspirated respiratory organs hazards : No information as a product

SafetyDataSheet

Issued/Revised on April 23, 2024. Ver. 1

12. Ecological information

Mobility in the soil No information Residual property and degradability : No information Bioccumulation characteristic : No information : No information Harms to ozoen layer

13. Disposal consideration

Residual wastes:

: For disposal, please obey to related laws and local standards. To consign to the official industrial Wastes Disposition Specialist who has permission of governor and so forth, and dispose. In case of consigning the processing of the wastes, please consign after notifying the hazardous and toxicity enough to the processing company.

14. Transport information

International rules : Not applicable United Nations classification and United Nations number Not applicable

Precautions at transportation : Avoid water-stained and rough handling, not to break package.

15. Regulatory information

Fire laws : Correspond to nominated inflammable substance (3,000kg and

more case)

Industrial Safety and Health Law Excluded. A Product that does not become a state other than a

solid state and does not become powder or granular.

PRTR Law : Excluded. A Product that does not become a state other than a

solid state and does not become powder or granular.

(PRTR Law: A law on grasping exhausting amount to the environment, and promotion of management improvement.)

16. Other information

Accident cases No information

Management of information contained herein

: The safety data sheet is provided to business operators who treat as a reference information for ensuring safety handling concerning to danger and hazardous chemical products. The handling business operators, please utilize this, as reference, on understanding of being necessary to take proper measure for the actual situation of each handling at own responsibility. Therefore, this data sheet itself is not a written guarantee of
