

SafetyDataSheet

Issued/Revised on April 01, 2021. Ver. 5

1. Identification of product and manufacturer/supplier detail

Product Identification number: : Slion Tape #9244
Manufacturer/Supplier : Maxell, Ltd.,
Address : 3819 Noborito, Tama-ku, Kawasaki, Kanagawa, 214-0014, Japan
Section in charge: : Quality & Environment Administration Section
Direct phone number: : +81-44-577-2482
Emergency phone number: : General Affairs Section +81-44-922-1131

2. Hazards Identification

GHS classification : The captioned product is an article and not correspond to the criterion of GHS classification.

3. Information on composition and ingredients

: Compound
Single chemical substance or compound: : Adhesive tape
Generic name : Not applicable
Chemical characteristics (chemical formula, etc.):

Ingredients and composition

Components and ingredients	Content (wt.%)	CAS No.	Note
Base(Non-woven)	5 ~ 7	—	
Polyethylene	3 ~ 5	9002-88-4	
Pressure sensitive adhesive	71 ~ 81	—	
Release Paper	8 ~ 18	—	

4. First-aid Measures

In case of the adhering to skin : Peel off slowly, then wash thoroughly by soap and water. In case of feeling sick, please consult with the doctor.
In Case of Eye Contact : Wash away thoroughly by clean water. If there is irritation, please have the doctor's treatment.
In case of swallowing : Spitting out as possible, and if you felt abnormality, please have the doctor's treatment.

5. Fire-fighting Measures

Extinguishing Media : The pouring water, the water spraying, the powder extinguishing agent, the carbon dioxide gas, the foam extinguishing agent.
Specific hazards during fire : There are possibilities of carbon monoxide or carbon dioxide gas occurrence by thermal decomposition and incomplete burning.
Extinguishing method : Extinguish by using extinguishing media from windward.
Protection for Fire-fighter : Wear a fire suit by the situation. Also, against carbon monoxide and carbon dioxide, wear a suitable respiratory protective device.

6. Accidental release measures

Personal Precautions : Not applicable
Environmental Precautions : Not applicable
Methods and materials for containment and cleaning up : Sweep up scraps together by a broom, etc.

SafetyDataSheet

Issued/Revised on April 01, 2021. Ver. 5

12. Ecological information

- Mobility in the soil : No information
Residual property and degradability : No information
Bioaccumulation characteristic : No information
Harms to ozoen layer : No information

13. Disposal consideration

- Residual wastes : For disposal, please obey to related laws and local standards. To consign to the official industrial Wastes Disposition Specialist who has permission of governor and so forth, and dispose.
In case of consigning the processing of the wastes, please consign after notifying the hazardous and toxicity enough to the processing company.

14. Transport information

- International rules : Not applicable
United Nations classification and United Nations number : Not applicable
Precautions at transportation : Avoid water-stained and rough handling, not to break package.

15. Regulatory information

- Fire laws : Correspond to nominated inflammable substance (3,000kg and more case)
Industrial Safety and Health Law : Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.
PRTR Law : Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.
(PRTR Law: A law on grasping exhausting amount to the environment, and promotion of management improvement.)
EU REACH Restriction : Contain more than 1 ppm of PAHs of the objective substance that is restricted by ANNEX XV II .However, the subject is to touch the human skin or mouth a long time, or repeat to touch in a short period.
Please cntact the section in charge when detailed information is necessary.

16. Other information

Reference documents

- 1) JIS Z 7253:2012
- 2) GHS information provision system (2016.6), Ministry of Health Labour and Werfare, and Ministry of Economy, Trade and industry.

- Accident cases : No information

- Management of information contained herein : The safety data sheet is provided to business operators who treat as a reference information for ensuring safety handling concerning to danger and hazardous chemical products. The handling business operators, please utilize this, as reference, on understanding of being necessary to take proper measure for the actual situation of each handling at own responsibility. Therefore, this data sheet itself is not a written guarantee of safe.
