SafetyDataSheet

Issued/Revised on April 23, 2024. Ver. 1

1. Identification of product and manufacturer/supplier deta

•	••	
Product Identification number:	: Slion Tape #9280-(00~99)	
Manufacturer/Supplier	: Maxell, Ltd.,	
Address	: 3819 Noborito, Tama-ku, Kawasaki, Kanagawa, 214-0014,	Japan
Section in charge:	[:] Quality & Environment Administration Section	
Direct phone number:	: +81-44-922-1131	

2. Hazards Identification

GHS classification

Generic name

: The captioned product is an article and not correspond to the criterion of GHS classification.

3. Information on composition and ingredients

Chemical characteristics (chemical formula, etc.):

Single chemical substance or compound:

- : Compound
- : Adhesive tape
- : Not applicable

Ingredients and composition

Components and ingredients	Content (wt.%)	CAS No.	Note
Base(Aluminum polyethylene cloth)	8 ~ 18	_	The Tape contains 1.0% of
Pressure sensitive adhesive	71 ~ 81	-	manganess dioxide(CAS 1313-13-9, Type1 designated
Release paper	6 ~ 16		chemcal substance)

4. First-aid Measures

In case of the adhering to skin

In Case of Eye Contact

- In case of swallowing
- 5. Fire-fighting Measures

Extinguishing Media

Specific hazards during fire

Extinguishing method Protection for Fire-fighter

6. Accidental release measures

Personal Precautions Environmental Precautions Methods and materials for containment and cleaning up

- : Peel off slowly, then wash thoroughly by soap and water. In case of feeling sick, please consult with the doctor.
- : Wash away thoroughly by clean water. If there is irritation, please have the doctor's treatment.
- : Spitting out as possible, and if you felt abnormality, please have the doctor's treatment.
- : The pouring water, the water spraying, the powder extinguishing agent, the carbon dioxide gas, the foam extinguishing agent.
- : There are possibilities of carbon monoxide or carbon dioxide gas occurrence by thermal decomposition and incomplete burning.
- : Extinguish by using extinguishing media from windward.
- : Wear a fire suit by the situation. Also, against carbon monoxide and carbon dioxide, wear a suitable respiratory protective device.
- : Not applicable
- : Not applicable
- : Sweep up scraps together by a broom, etc.

SafetyDataSheet

Issued/Revised on April 23, 2024. Ver. 1

7. Precautions for handling and storage

Handling

- Technical measures
- Precautions

Precautions for safe handling Storage Technical measures Storage conditions

Packaging container material

8. Exposure controls / Personal protection

Equipment measures

Control density parameters Allowance density parameters

Personal protection equipment Respiratory protection Hand protection Eye protection

Skin and body protection

9. Physical and chemical properties

Physical State	: Solid
Form	: Roll or Sheet
Melting/Solid point	: No data
Boilling point	: No data
Flash point	: No data
Autoignision temperture	: No data
Specific gravity	: Approx. 1.3 (Except Release Paper)

:

:

10. Stability and reactivity

Stability and reactivity

Hazardous Decomposition Products(Excluding carbonoxide, carbon-dioxide, water)

11. Toxicological information

Acute toxicity Skin corrosivity/irritation Serious damage/irritation against eyes Sensitizing potential of respiratory organs Sensitizing potential of the skin Germ cell mutagenicity Carcinogenicity

Reproductive toxicity

- For a long term and repeatedly, let the adhesive surface not touch to the skin. Also, let not to touch the eyes.
- : Avoid contact to flame, spark or high temperature object for prevention of the fire.
- : Hands and fingers etc may be damaged at the edge of the tape etc,so. Handle with care.Wear appropriate protective equipment such as gloves if necessary.
- Handle thoroughly after handling.
- : Fire Attention
- : Storing at cool and dark place is desirable.
- Not applicable.
- Installing equipment for eye cleaning and body washing near the handling place.
- : Not applicable.
- : Not applicable.
- : Not necessary in general
- : Wear protective gloves
- : It's not necessary in general, but if necessary, please wear normal eye glasses, and protection glasses.
- : Let the adhesive surface not to touch directly to the skin and body by protective gloves or like

- : Under the general storage and handling, it is stable and not reactive. It will not react dangerously at normal temperature.
- : So far, no significant data is available.
- No information as a productNo information as a productNo information as a product
- : No information as a product

No information as a product

No information as a product

- : No information as a product. But contains extremely small amount of PAHs in the adhesive.
- : No information as a product

SafetyDataSheet Issued/Revised on April 23, 2024. Ver. 1

11 Taxicological information (continuation)	
11. Toxicological information (continuation) Specific target organ systemic toxicity(single exposure)	: No information as a product. But contains manganese dioxide ir
	the adhesive.
Specific target organ systemic toxicity(repeated exposure)	: No information as a productt. But contains manganese dioxide i
	the adhesive.
Aspirated respiratory organs hazards	: No information as a product
12. Ecological information	
Mobility in the soil	: No information
Residual property and degradability	: No information
Bioccumulation characteristic	: No information
Harms to ozoen layer	: No information
13. Disposal consideration	
Residual wastes :	 For disposal, please obey to related laws and local standards. To consign to the official industrial Wastes Disposition Specialist who has permission of governor and so forth, and dispose. In case of consigning the processing of the wastes, please
	consign after notifying the hazardous and toxicity enough to the processing company.
14. Transport information	and proceeding company.
International rules	: Not applicable
United Nations classification and United Nations number	: Not applicable
Precautions at transportation	: Avoid water-stained and rough handling, not to break package.
	. Avoid water-stained and rough handling, not to break package.
15. Regulatory information	
Fire laws	: Correspond to nominated inflammable substance (3,000kg and more case)
Industrial Safety and Health Law	: Excluded. A Product that does not become a state other than a solid state and does not become powder or granular.
PRTR Law	: Excluded. A Product that does not become a state other than a
(PRTR Law: A law on grasping exhausting amount to the environment, and promotion of management improvement.)	solid state and does not become powder or granular.
EU REACH Restriction	: Contain more than 1 ppm of PAHs of the objective substance
	that is restricted by ANNEX XV II. However, the subject is to
	touch the human skin or mouth a long time, or repeat to touch
	in a short period.
	Please cntact the section in charge when detailed information
	is necessary.
16. Other information	
Accident cases	: No information
Management of information contained herein	The safety data sheet is provided to business operators who treat as a reference information for ensuring safety handling concerning to danger and hazardous chemical products. The handling business operators, please utilize this, as reference, on understanding of being necessary to take proper measure for the actual situation of each handling at own responsibility. Therefore, this data sheet itself is not a written guarantee of
